Himalaya
Music Fountain

WHY CHOOSE US?

Manufacture or trading company.

We have a factory located in Changsha to manufacture the hardware of the fountain, including nozzles, lamps and a center for developing the control hardware and software.

Products originality and quality.

Himalaya Company is a sponsor for the Optical-electron Lab, and has made a contract with the **University of Changsha** for R&D of the latest technology in musical fountain field. All our goods are inspected by **China Quality Bureau**.

Price compatibility.

We do not claim. We ask you to source other suppliers and in the end give us a call. You won't lose anything if not gained.

Safety of your money.

We are **A (Top Rank) credit Company** at **Bank of China**, and have got a **\$500,000** guarantee from **Alibaba** company for order conformity.

Quality features and after sales service.

Himalaya has got **13 patents**, **2 for new swinging mechanism**, and **5 for fountain control innovation**. We have also authorship for our DMX control-software, registered at China Bureau of Authorship and Patents.

Company credibility and capability.

Himalaya has built fountains in more than **30 countries** around the world, and reference is easily available from customers across different areas.

COMPANY PROFILE

HISTORY

Founded in Year of 2004

CORE BRAND

Comprehensive water show brand Water Show Fountain
High-end musical water show brand Dancing Water Fountain

HONOR

National high-tech enterprise;
13 National Patents and 2 Authorship for Software

RESEARCH QUALIFICATION

Hunan municipal research institution (provincial level)

CONSTRUCTION QUALIFICATION

Class II mechanical & electrical contracting qualification Certificate

GLOBAL PRESENCE

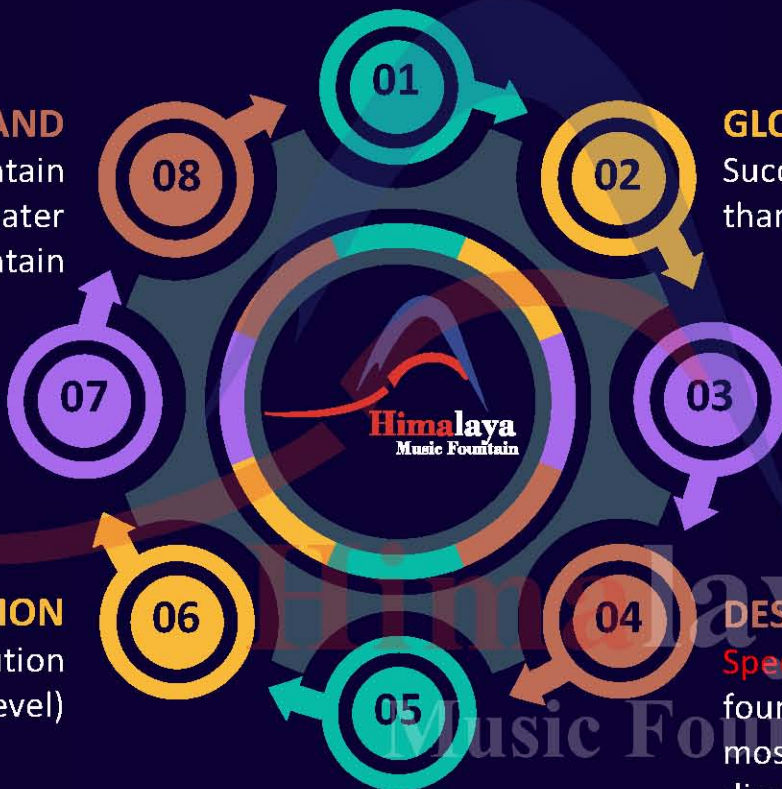

Successfully Executed Projects in more than 30 Countries

PRESENCE IN INDIA

Successfully Executed 9 large size project with 2-9 Cr in India

DESIGN QUALIFICATION

Special-class certificate of water fountain design. Company having most advance 3D real time effects displaying software programming capability

SERVICE SYSTEM / PROCESS

INDUSTRY FIRST-WHOLE CHAIN CULTURAL TOURISM WATER SHOW SERVICE SYSTEM

The company has built three professional teams of creativity & conceptual Design, technology research and development and engineering with unified operating standards, unified service standards, seamless work interface, which can provide customers with high-quality turnkey project work of Musical Fountain water show.

INSTALLATION

- Proper installation of LED Light with water proof joint is the most critical aspect of fountain installation.
- Many fountain project faces difficulties with failure of LED Lights.
- To ensure the integrity of the water effect, the position accuracy must be monitored, verified and guaranteed.

INSTALLATION

We designed its own specialized underwater junction box which provides a good solution for the connecting. It plays an important role in protecting the safety and continuous operation for cables and wires.

Silicone rubber is used for isolation at the contacting points during pump installation.

SUPPORTING PRODUCTS: LED MOVING HEAD 3 in 1 LIGHTS

PRODUCTS

01

IP 66 Water proof Moving head beam light, adopting aluminum cover suitable for harsh environment

02

The lamp's switch can be remotely control and cooling system can be adjusted automatically.

03

OPC and Over temperature Protection. Forced ventilation and axial fans

04

Excellent CMY (Color Mixing system) for displaying beautiful colors on fountain as well as on mist

05

High power 450W light with option of Beam, Wash, Fixed Gobo Wheel, Prism

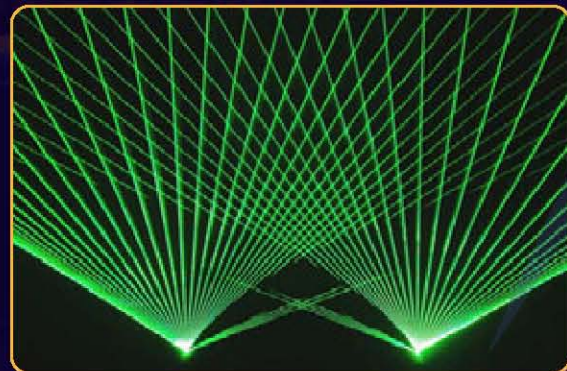

06

CE, RoHS compliance Product

SUPPORTING PRODUCTS: RGB Laser 3W-50W

PRODUCTS

01

Specially Design Laser projector available from 1W to 30W Single color and Full color RGB

02

Support for Quick Show FB3 /FB4 and Beyond FB3 / FB4

03

Professional customize Laser Programming support as per music requirement by using Pangolin software

04

High Speed scanning of 40-60K and wide 45-60 Degree scanning angle which is required for Fountain show

05

Thermal cooling with low noise fan for longer life of Diode

06

FDA / CDRH, CE, RoHS compliance lasers

SUPPORTING PRODUCTS: WATER LEVEL SENSOR AND WIN SENSOR

Water Level Sensor

Wind Sensor

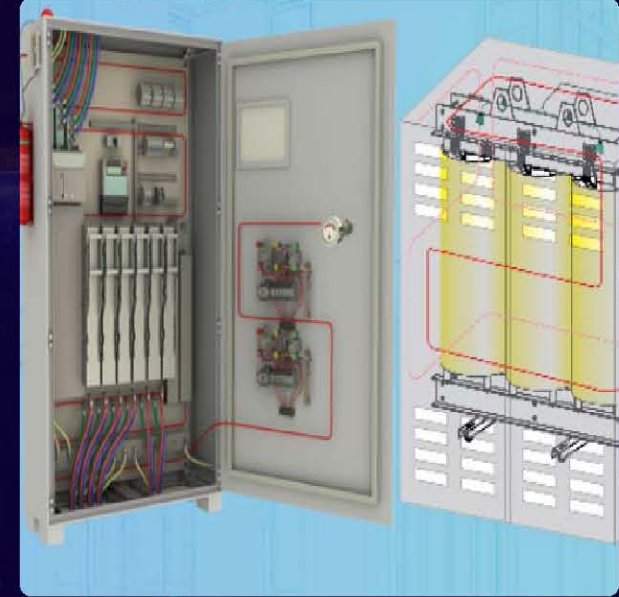

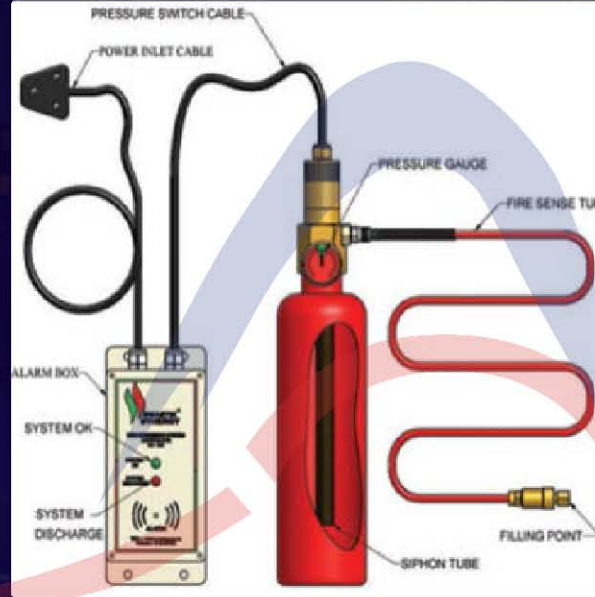

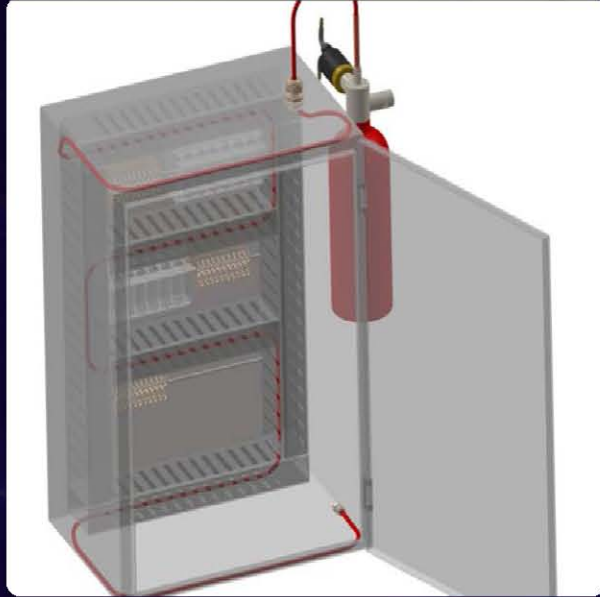

PRODUCT DESCRIPTION

- 01 → Act as Security check point for the pumps before starting the show if the fountain level drops below required level.
- 02 → System makes it possible to trigger automatic alarm if water level is dropped below set level.
- 03 → Water level sensor is very robust and made of Stainless Steel 304
- 04 → Sensing level can be adjusted at the time of installation and can be change as per requirement

PRODUCT DESCRIPTION

- 01 → Wind sensing system is the best to know the result of Water screen. Specially where Video Projection is part of the show
- 02 → Clarity of Projection on water screen not only dependent of type of projector or water screen nozzle. Wind plays very effecting role for that too
- 03 → It can also warn about the water loss due to high wind
- 04 → Incase of the strong wind, Fountain height can be reduce and the show can be executed

ELECTRICAL FIRE SUPPRESSION SYSTEMS FOR ELECTRICAL PANELS

01

Self-activating system without human intervention and without external power supply which can protect highly complex electrical equipment

02

linear detection tubing which is installed throughout the panels and cableways

03

These systems do not need complex electronic detectors or panels and operate simply using pneumatics.

04

Non-conductive extinguishers are available which will not damage the electrical components or leave a residue
